

LOAD TESTING FOR SOLAS EQUIPMENT

LIFEBOAT LOAD TESTING

GANGWAY LOAD TESTING

Alatas supplies certified water bags and calibrated load cells for Lifeboat, Davit System, Gangway & Accommodation Ladder testing.

- Our site team will take care for the positioning, filling and removal of the testing equipment.
- Ready for Cruise ships and Cargo vessels.
- Load tests with water bags are SAFER than solid weights as the load is applied progressively and not immediately on the structures.
- The water bags can be filled and emptied remotely.
- Service report will be provided after testing.
